

Sample University of Technology

Academic Regulations Handbook

Academic Year 2025-2026. Applicable to all undergraduate B.Tech programmes. This is a sample document created for testing a college assistant and does not describe any real institution.

1. Attendance Requirements

1.1 Minimum Attendance

Students are required to maintain a minimum overall attendance of 75% in every course in order to be eligible to appear for the end-semester examination. Attendance is calculated separately for each course, as the number of classes attended divided by the total number of classes conducted, including theory, tutorial and laboratory sessions.

1.2 Attendance Shortage and Condonation

Students with attendance between 65% and 74.99% in a course may apply for condonation of attendance shortage. A condonation fee of Rs. 500 per course must be paid, and the application must be supported by valid documents such as a medical certificate or an official letter for participation in university-approved events. Condonation can be granted a maximum of two times during the entire programme.

Students with attendance below 65% in a course are not eligible for condonation. Such students will be marked 'Detained' in that course and must repeat the course when it is next offered.

1.3 Attendance for Laboratory Courses

Attendance in laboratory courses is compulsory. A student who misses more than three laboratory sessions in a semester must complete the missed experiments in a make-up session approved by the course instructor, otherwise the internal laboratory marks will be withheld.

2. Examination Rules

2.1 Examination Structure

Each theory course is evaluated through continuous internal assessment (40 marks) and an end-semester examination (60 marks). The end-semester examination is of three hours duration. Laboratory courses are evaluated through continuous assessment (60 marks) and a practical examination with viva-voce (40 marks).

2.2 Examination Registration

Students must register for end-semester examinations through the student portal at least 15 days before the start of the examinations. The registration process requires: (a) clearing all pending fee dues, (b) meeting the minimum 75% attendance requirement or having an approved condonation, and (c) selecting all courses for which the student wishes to appear. A late registration is allowed up to 5 days before the examinations with a late fee of Rs. 1000.

2.3 Hall Tickets

Hall tickets can be downloaded from the student portal 7 days before the examinations begin. Students must carry the hall ticket and the college identity card to every examination. Students without a hall ticket will not be allowed to enter the examination hall.

2.4 Examination Conduct

Mobile phones, smart watches and any other electronic devices are strictly prohibited inside the examination hall. Students must arrive at least 20 minutes before the start of the examination and will not be permitted to enter after 30 minutes from the commencement of the examination. Students may not leave the hall during the first 60 minutes.

3. Internal Assessment

The 40 internal marks for a theory course are distributed as follows: two mid-semester tests (15 marks each, best scores averaged to 15), assignments and quizzes (15 marks), and class participation and attendance (10 marks). Students who miss a mid-semester test due to a genuine medical reason may request a re-test within 7 days by submitting a medical certificate to the Head of the Department.

4. Grading System

4.1 Letter Grades and Grade Points

The university follows a 10-point grading system. The grades are: O (Outstanding, 10 points) for 90 marks and above; A+ (Excellent, 9 points) for 80 to 89 marks; A (Very Good, 8 points) for 70 to 79 marks; B+ (Good, 7 points) for 60 to 69 marks; B (Above Average, 6 points) for 55 to 59 marks; C (Average, 5 points) for 50 to 54 marks; P (Pass, 4 points) for 40 to 49 marks; and F (Fail, 0 points) for below 40 marks. Students absent from the examination are awarded the grade Ab.

4.2 Passing Criteria

To pass a theory course, a student must score at least 40% in the end-semester examination and at least 40% in the total (internal plus external) marks. A student who obtains grade F or Ab must appear for the supplementary examination.

4.3 SGPA and CGPA

The Semester Grade Point Average (SGPA) is the weighted average of grade points earned in a semester, weighted by course credits. The Cumulative Grade Point Average (CGPA) is the weighted average over all semesters completed. A minimum CGPA of 5.0 is required to be awarded the degree. Percentage equivalent is calculated as CGPA multiplied by 9.5.

5. Re-evaluation and Supplementary Examinations

5.1 Revaluation

Students may apply for revaluation of their answer scripts within 7 days of the declaration of results by paying a fee of Rs. 800 per course. Revaluation is not permitted for laboratory courses. If the revaluation results in a change of marks, the higher of the two scores is considered.

5.2 Supplementary Examinations

Supplementary examinations are conducted once a year, usually in the month of July. A student may appear for a maximum of eight supplementary attempts during the entire programme. The registration fee for each supplementary course is Rs. 1200.

6. Internship Requirements

Every student must complete a minimum of 8 weeks of internship, preferably during the summer break after the sixth semester. The internship must be approved in advance by the Training and Placement Cell and a faculty mentor. At the end of the internship, the student must submit a report of 25 to 40 pages and a completion certificate from the organisation within 15 days of rejoining the college. The internship carries 2 credits and is graded on a Pass or Fail basis.

7. Academic Misconduct

7.1 Malpractice in Examinations

Possession of unauthorised material, copying from another student, impersonation, or any other form of malpractice in the examination hall will be treated as an academic offence. The first offence results in cancellation of the examination in that course and a zero score. A second offence leads to cancellation of all examinations of that semester. Serious or repeated offences may result in rustication for one or more semesters.

7.2 Plagiarism

Plagiarism in assignments, projects, reports or theses is not permitted. All project reports are checked using plagiarism detection software, and a similarity index of more than 20% is not acceptable. Students found guilty will be required to resubmit their work and may face further disciplinary action.

8. Leave Rules

Students who wish to take leave of absence for up to 3 days must submit a written application to the class advisor. Leave of more than 3 days requires the approval of the Head of the Department. Medical leave of more than 7 days must be supported by a certificate from a registered medical practitioner and submitted within 3 days of resuming classes. Approved leave does not count as attendance, but may be considered while applying for attendance condonation.

9. Academic Calendar Overview

Each academic year consists of two semesters. The odd semester generally runs from August to December and the even semester from January to May. Each semester has at least 90 working days. Mid-semester tests are held in the 8th and 14th weeks of instruction, and end-semester examinations begin approximately two weeks after the last day of classes.

10. Contact

For queries related to these regulations, students may contact the Office of the Controller of Examinations at examcell@sampleuniversity.example or the Academic Section at academics@sampleuniversity.example.
